

Installing iPod Nano 2nd Generation Bottom Bezel

Tools used in this guide

- [Plastic Opening Tools](#)

Parts relevant to this guide

- [iPod Nano Gen 2 Bottom Bezel](#)

Step 1 - Bottom Bezel

- Before opening your iPod, ensure that the hold switch is in the locked position.

Step 2

- When removing the the bottom bezel, be sure not to bend the plastic surrounding the dock connector.
- Carefully insert an iPod opening tool in the seam between the metal casing and white plastic bezel
- Lift the bottom bezel off the iPod. It's glued on using a mild adhesive, so some force may be required.
